

BCFSII-1210, 1208

Description

- Approved for food contact
- Designed for temperature sensitive applications
- Air circulates rapidly through the cavities of the spacer ensuring a faster and efficient freezing of the whole pallet load
- Maximum air penetration in Freezing and Tempering operations
- Effective at temperatures range between -40° below to 60°
- Open profile design allows for easy cleaning
- Nestable for space saving
- 100% recyclable
- High density polyethylene

BSCFSII 1210

Product code / Ref:	BCFS-II 1210
Size:	(L) 1000 mm (W) 1200 mm (H) 50 mm
Weight:	3.36 kg
Material:	HDPE
Colour/s:	Black
Temperature Range:	Effective at temperatures between -40° below to 60°

BCFSII 1208

Product code / Ref:	BCFS II-1208
Size:	(L) 800 mm (W) 1200 mm (H) 50 mm
Weight:	2.72 kg
Material:	HDPE
Colour/s:	Black
Temperature Range:	Effective at temperatures between -40° below to 60°
